**DETAILED ACTION**

***Response to Amendment***

1. Applicant's amendment filed on February 14, 2005 has been entered. Claims 14-26 have been amended. No claims have been cancelled. No claims have been added. Claims 14-26 are still pending in this application, with claim 14 being independent.

***Claim Rejections - 35 USC § 102***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 14 and 19-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Honkasalo et al. (US 5,995,496), as per the reasons set forth in the Office Action mailed on 11/18/2004; hereby incorporated by reference.

***Claim Rejections - 35 USC § 103***

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 15-18 and 25-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Honkasalo et al. (US 5,995,496), as per the reasons set forth in the Office Action mailed on 11/18/2004; hereby incorporated by reference.

### ***Response to Arguments***

6. Applicant's arguments filed on February 14, 2005 have been fully considered but they are not persuasive.

Applicant requested the Examiner to explicitly read the limitation cited on page 15 of Amendment mailed on 2/14/2005, specifically Col. 5, lines 11-15 and 29-34.

Honkasalo's system teaches that in the event of "a given time no feedback information is received" (or "delay") the system will go back to an "Initial" State (or open-loop system). Further, in Col. 6, lines 1-8, Honkasalo teaches that the base station determines the minimum transmit signal power based on the quality standard of the received signal. The Examiner believes that Applicant's limitation reads into Honkasalo's open-loop system.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 2642

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
